UNIQUE FORMAT

WHY VISIT?

The popular event for design & production engineers, bringing together the best of **Engineering Materials Live**, **FAST LIVE** and **PCB Live**

Returning to the **British Motor Museum** at JLR in Gaydon, buyers and specifiers for the popular **FAST LIVE** and **Engineering Materials Live** events will be joined by design and production engineers visiting **PCB Live**.

Engineering Solutions Live is the essential event for anyone who does business with design and production engineers

One six-hour day ● **One** central location ● **One** fantastic show

www.engineeringsolutionslive.co.uk

THE RIGHT AUDIENCE

WHY EXHIBIT?

Engineering Solutions Live will be promoted extensively to design and production engineers throughout the British manufacturing industry; **46,647** contacts at **15,322** sites (Heads of Engineering, Design Managers, R&D Managers, Production Managers)

- Easy to arrange and highly targeted audience
- Attendance by pre-registration only delivers an audience of genuine OEM buyers, users, designers & specifiers with real materials and joining/assembly needs
- Exhibitors arrive to a pre-built shell scheme stand – ready to go!
- All stands are the same size providing a level playing field
- High profile engineering friendly venue adds to the visitor experience
- Complimentary breakfast roll and brew on arrival for pre-registered visitors (before 10.30am)
